Dear Dr. Doisy:

I'm glad indeed to prepare a statement about Ed Tatum.  
I enclose it herewith.

The Botany Section has already nominated Tatum and he  
is coming along well. I believe, though, he's a natural  
for an intersectional nomination so I'm glad the Physiology  
and Biochemistry Section is considering him too. Sinnott,  
I believe, prepared the statement for the botanists. He  
or Cleland or B. F. Jones, present chairman of Botany, can  
no doubt supply a copy of this plus a list of publications.  
Perhaps you may want to make a composite of Sinnott's and  
my statement.

Anyway, I hope we can get him in next year or the one  
thereafter.

Best regards,

G. W. Beadle
